SUBJECT

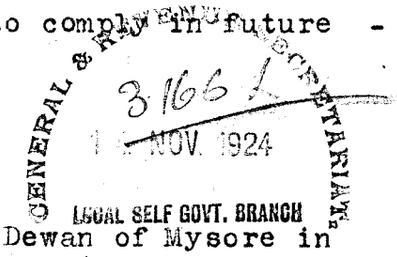
Examination by the Chemical & Geological Engineering of the Cargo of the Ship [illegible]

Copy of a D.O. letter No.415 dated the 13th. November, 1924. from T. Thumboo Chetty, Esq., to the Dewan of Mysore.

********** Sans 38-24-1

"A tiger cub at the Palace Zoo died suddenly a few days back. As it was suspected to have been poisoned, the Palace Veterinarian was directed to send its intestinal contents to the Chemcial Ex- -. aminer to the Government of Mysore, Bangalore, for examination and it is learnt from the latter officer that under a standing Government Order in the matter he is precluded from undertaking the examination unless the requisition is received from the Superintendent of Police.

I am therefore desired to request you to kindly issue necessary orders in the matter of the Chemical Examiner undertaking the examination of the case under reference and to comply in future - with similar requisitions from the Palace."



****

Copy of D.O. letter No.P.C.88 from the Dewan of Mysore in reply to the above.

****

2) "I have received your D.O. letter No.415. dated the 13th. inst. and shall issue the necessary orders in the matter."

****

M.C.No.325.

3) Copies of the above letters are forwarded with compliments to the Local and Legislative Secretary to Government, for favour of issue of a Government Order.

1) Subject to para 1 of the rules defining the duties of the Chemical Examiner to Govt, that office should make bacteriological & pathological investigation as may be required by any Gazetted Medical Officer working on independent charge, pending the organisation of a chemical laboratory. The Chemical Examiner must have refused to analyse articles sent by or at the direction of the Palace Veterinarian. Under the above clause, the chemical Examiner will examine the articles, if sent through the medical officer of the Gazetted rank in charge of the Palace Dispensary or by the Surgeon General. If this view be accepted, the present rules do not required any modification.

2) The Steward secretary may therefore be informed of the above facts, if approved and a copy of this note ref^d above may also be sent to him for information. Submitted for orders

D.O. No. L38/1 & 22.11.24.

Jan 38-24-2

Dear Sir,

I am desired to state that the Palace authorities have intimated that with reference to the intestinal contents of a tiger cub, which died in the Mysore Zoo under suspicious circumstances sent to you for examination, they were informed that under the standing orders, you were precluded from examining the said articles unless the requisition was received from the Superintendent of Police. I am therefore to request that pending the revision of the rules relating to the examination of substances by the Chemical Examiner, you may examine the viscera sent by the Palace authorities and report the result to them. I shall be obliged by a reply as to the action taken in the matter.

Yours sincerely,

Secretary

Sanc 38-24-6

Sir,

with reference to your letter No.E.4676 San. 38-24-5 dated 2nd January 1925, I have the honor to state that all the articles such as intestinal contents, foods, drinks Etc., are sent here for examination purpose by the Police officers and Magistrates not below the rank of an Assistant Superintendent of Police, when there is a suspicion of poisoning, and all these cases generally fall under the Medico-legal.

The veterinary officer in charge of the Palace Zoo has clearly stated stated in his D.O.letter that he suspects the animal to have been poisoned by some crude poisonous stuff and if he had strong reason to believe, he should have reported the matter to the Police who could have made a searching enquiry and forwarded the viscera for examination if necessary.

I am of opinion that the existing rules which restrict the sending officers only to the Superintendents of Police and magistrates are working satisfactorily and they are in accordance with the existing rules in British India and they need no change.

A copy of the G.O referred to is herein enclosed.

I have the honor to be,
Sir,
Your most Obedient servant
Chemical Examiner.

Copy of G.O. No.16841 G.F. 28-96 dated 14th April 1902.

Duties of the Chemical Examiner and Bacteriologist, Government of Mysore.

B a n g a l o r e.

San 38-24-8.

Sir,

With reference to your letter No.L.7036/ San. 38-24-7 dated 3rd April 1925 requesting to revise the existing rules relating to the Medico-legal examinations, I have the honor to state that as per instructions of the officiating Dewan, the articles from the Palace departments for such examinations are to be forwarded through the Huzur Secretary.

The existing rules prevailing in British India is, that all suspected cases of poisoning or murder have to be forwarded through the Police authorities who are the investigating officers, but if the rule is revised specially in the case palace departments, the Huzur Secretary who sends the articles will have to forward the opinion of the Chemical Examiner or the result of examination to the investigating officers, i e the police officers in any case, who only can take needful action. if necessary.

In order to avoid delay and confusion, I am of opinion that since the present procedure of sending articles holds good in all respects, the existing rules need no change.

Objection was taken in the last case as the Veterinary Inspector of the Palace department desired the examination of the viscera of tiger cub and when poisoning was suspected, the Veterinary Inspector could have reported the matter to the Police who could have sent a requisition for analysis.

This office takes no objection for any other (Other than Medi-

Medico-legal) article being sent from any officer of the Palace department.

I have the honor to be,

Sir,

Your most Obedient servant

Director
Public Health Institute, &
Chemical Examiner.
